PHONICS CENTERS

SCIENCE OF
READING ALIGNED

Phonics mastery begins here.

Welcome to your new best friend for building confident and independent readers in your classroom.

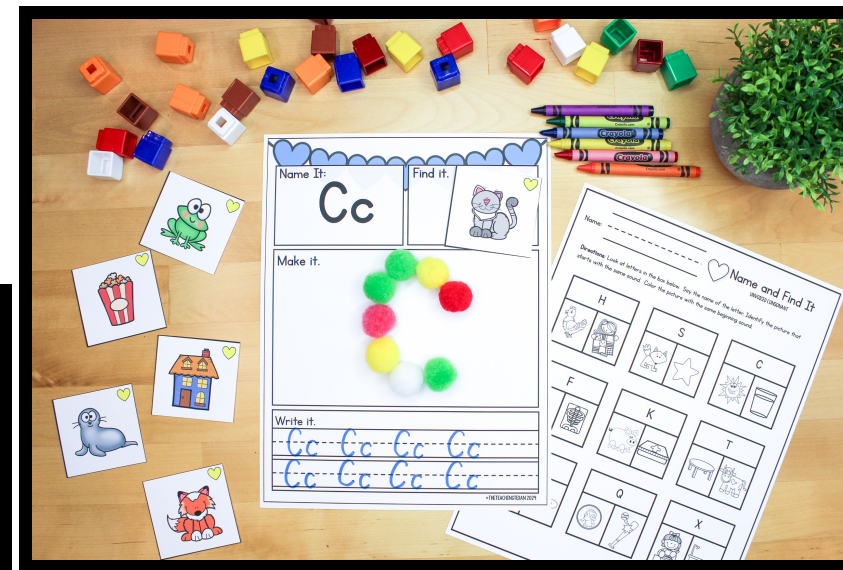

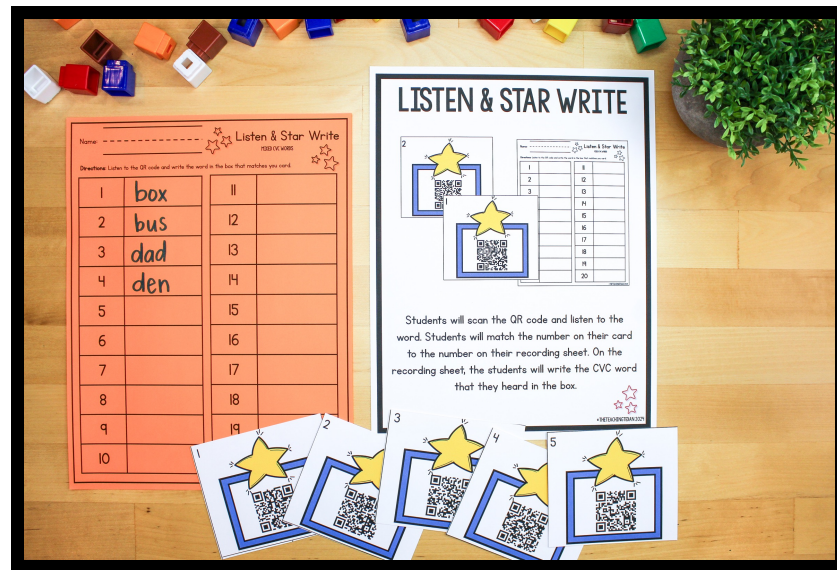

DESIGNED TO GROW INDEPENDENT READERS

Look at me! I read the whole book all by myself! My teacher helps me practice with fun activities and games, and now I'm a super reader! I'm so proud of myself!

Experience the power of Science of Reading-aligned instruction with meticulously crafted Phonics Centers designed to reflect current research and best practices. Developed by a full-time classroom teacher, these centers embody **real-world effectiveness.**

INCLUSIVE FOR ALL LEARNING STYLES

Crafted to cater to all learning styles. Each set features a diverse range of activities tailored for visual, kinesthetic, and auditory learners, ensuring every student thrives in their phonics journey.

SYSTEMATIC & INCREMENTAL CENTERS

Enjoy a **systematic approach to phonics instruction**, with activities that build upon one another. From the basics of letter recognition to digraph, trigraphs and more, our centers guide students through each stage of their phonics journey with **confidence and clarity**.

READ TO RACE THE HORSESHOE

L BLENDS

Students shuffle the cards with a horse on them then place the cards face down. The first player will flip over a card and read the sentence. The student will identify which words have beginning blends. The student will move a space for each beginning blend that is in his/her sentence. Students will also write the blends on their recording sheet. Players will take turns reading cards. Once they reach the opposite side of the horseshoe, they will put a marker on a horse. Players will continue to read cards and go around the horseshoe until the first player covers all of his/her horses.
